Course Resources
FullStackReact

OFFICIAL COURSE REPO:

https://github.com/StephenGrider/FullstackReactCode

Link to download NodeJS Installer

https://nodejs.org/en/download/current/

[Optional] Editor add-on to auto-format your JS

https://github.com/prettier/prettier

[Optional] Blog Posts on React and other neat stuff

https://rallycoding.com/

How to get help

1. **Udemy Discussion Threads**
   a. Chances are others are having the same troubleshooting issue as you!
2. **PM Stephen on Udemy**
   a. Usually fastest reply
3. **Twitter**
   a. https://twitter.com/ste_grider
4. **Github Issues on official course repo**
   a. https://github.com/StephenGrider/FullstackReactCode/issues
   b. If you post an issue here also PM me or tweet me a link, I don't get a lot of notifications on Github issues

Course Diagrams

- You can view all course diagrams on your own here:
  https://github.com/StephenGrider/FullstackReactCode/tree/master/diagrams
- All diagrams are authored using https://www.draw.io/
- You can edit diagrams on your own!
  - Go to https://github.com/StephenGrider/FullstackReactCode/tree/master/diagrams
  - Open the folder containing the set of diagrams you want to edit
  - Click on the '.xml' file
  - Click the 'raw' button
  - Copy the URL
  - Go to https://www.draw.io/
  - On the 'Save Diagrams To…' window click 'Decide later' at the bottom
  - Click 'File' -> 'Import From' -> 'URL'
  - Paste the link to the XML file
  - Tada!
